

DEFENSE ACADEMY

**World Leader in Military and
Police Training**

Advanced Global Training

Provides consulting services and specialized security training for teams deployed in high-risk environments. Advanced risk assessments provide practical solutions to even the most complicated security situations. Operating within a global sphere, **AGT** establishes new training sites according to client demand, wherever and whenever needed. Our dedicated in country training models are designed to remain flexible, in accordance with the operational timetables of your organization.

Our expertise covers all aspects of:

- Personal Protection
- Risk Assessment
- NBC Preparedness
- Contingency Planning
- Corporate Security, High-Risk Security and Specialist Training
- Airport & Sea Port Security

Specialized Training

Security teams deployed in any high-risk security environment require specialized training dedicated to a variety of unique challenges. We provide site-specific training to meet these existing and evolving challenges.

AGT's special training distinguishes itself by emphasizing both tactical and soft skills. Each course's curriculum is specifically designed to meet the exclusive needs of your security teams.

Risk Assessment and Contingency Planning

Assessing the risks and threats your organization is facing on a daily basis enhances its efficiency and effectiveness. Whether it is expanding operations under hostile conditions, or conducting internal security evaluations, AGT will identify and assess threats and implement proactive training measures in order to negate potential threats. All this can be accomplished without disrupting the continuity of normal work schedules.

Our Professional

and dedicated management team will work proactively to provide your corporation with a multifaceted array of consulting services. The core staff is comprised of instructors with multi-national military backgrounds who specialize in weapons usage (including sharp-shooting), tactics, special operations and analysis.
